ABOUT ME

Aspiring AI Engineer with hands-on experience in Python, **LangChain**, **LangGraph**, and modern web technologies. Quick learner with a strong problem-solving mindset, passionate about building **AI-powered**, scalable, and user-friendly applications. **Continuously enhancing technical** and analytical skills through practical projects **focused on AI, automation, and real-world impact**, while staying updated with emerging technologies and industry trends.

EDUCATION

JD College of Engineering and Management, Nagpur
Bachelor of Technology in Artificial Intelligence
CGPA:7.6

PROFESSIONAL EXPERIENCE

Graphura India Private Limited, Frontend Developer 01/2026 – 04/2026

- Developed and enhanced **web applications using modern frontend technologies**, ensuring high performance and scalability.
- Built **responsive, user-friendly interfaces** with a strong focus on usability and seamless user experience across devices.
- Leveraged **React.js to implement component-based architecture**, improving code reusability and maintainability.
- Identified and resolved **UI/functional bugs**, enhancing application performance and stability.
- Collaborated in **real-world development workflows**, gaining experience in version control, debugging, and iterative development.

SKILLS

Programming Languages: HTML, CSS, JavaScript, Python

Frameworks: React.js, Bootstrap ,Tailwind CSS

Databases: SQL, MongoDB

Tools & Technologies: Git, GitHub, VS Code

CERTIFICATIONS

Enhancing soft skill and Development - NPTEL 🏆 (Completed: April 2024) |

Programing Foundation with JavaScript, HTML and CSS - Coursera 🏆 (Completed: June 2023)

PROJECTS

FruitBounty 🏆 , *MERN Stack (MongoDB, Express.js, React.js, Node.js)* 2026

- Developed a **web application for a fruit bowl startup**, enabling users to explore and order **curated product offerings** seamlessly.
- Designed a **responsive and visually engaging UI**, improving user engagement and ensuring smooth experience across devices.
- Built **interactive components and intuitive navigation flows**, enhancing usability and reducing user drop-offs.
- Delivered a **clean, user-centric design aligned with real-world business requirements**, focusing on simplicity, accessibility, and conversion.

Resume_Shortlisting_System, *React.js, java, My SQL* 2026

- Developed a **resume screening web application** to analyze and shortlist candidates based on **relevance criteria and job requirements**.
- Designed a **clean, user-friendly interface** enabling seamless resume upload and efficient recruiter interaction.
- Implemented **automated parsing and evaluation logic**, improving screening efficiency and reducing manual effort by **~40%**.
- Enhanced **shortlisting accuracy and usability**, enabling faster and more consistent candidate selection.

CelebrateHub - Decoration Chooser 🏆 , *MERN Stack, Cloudinary* 2025

- Built a **full-stack decoration selection web application** enabling users to upload, browse, and view **100+ decoration samples** seamlessly.
- Developed a **responsive frontend using React.js** and a **scalable backend with Node.js & Express.js**, managing structured data with **MongoDB**.
- Integrated **Cloudinary for cloud-based media storage**, optimizing image delivery and reducing load time by **~30%**, enhancing overall user experience.
